Making Trading Forex Easier

Fx Autotrader Elite

When you buy the FX Autotrader Elite, here's a quick preview of what you'll have at your fingertips:

- **Your personal robot, built to perform, full of features that you control.**
 - Eight indicator modules that you can adjust as you wish including multi-timeframe MA crossovers, RSI, MACD, MA of RSI, Bollinger Bands
 - No restrictions on the number of currency pairs
 - You can set your own Take Profit, Break Even and Stop Loss targets
 - Broad range of options for Exit and Entry rules
 - An Alert option should you want to manually confirm a trade entry
 - And lots more – scale-ins (normal and reverse), basket management, dynamic money management using ATR-based settings
 - Check out all the features on pp 16 to 24 of the [User Guide](#)
- **How to fast track and learn to trade like the experts**

You can design, test and amend your strategies across different currencies and time periods. Then use what works. Our Guide helps you avoid wasting time.
- **How to find the style of trading that suits you and your lifestyle**

You decide how much time you want to devote to trading. You can set FX Autotrader Elite to trade 15 min charts, that requires more checking, or 4-hour charts that you can check in a few minutes a day
- **How to stop stressing about your trading**

Rather than worrying about what a robot is going to do in changing market conditions, you know how the parameters are set...as you set them. If the market is too volatile for you, you can move to longer time frames or turn it off for a day, a week or more
- **Where to focus your time and effort. When to turn off and walk away.**

I'll show you from my experience when best to let your profits run, and when to cut and run
- **A whole new way to think about designing and executing strategies.**

The many features put you in the driver's seat without the hours of manual testing

- **Time filter.** Trade 24/5 or select up to two periods a day and/or select which days of the week you want to trade
- **Learn how to trade more confidently and take the pain out of execution** Knowing when and how your strategies work breeds confidence. And confidence breeds success. Automated trading takes the emotion out of deciding on whether to enter or exit a trade....FX Autotrader Elite will pull the trigger for you
- **Set exactly when you want to look for good trades.** Pick your times when the markets are kinder to your style of trading e.g. London or Asian session
- **Develop better, more profitable strategies.** The more you trade your own strategies, the more you learn and grow into a better trader.
- **Run the strategies with the EA Controller** so that they only trade while the market conditions for the strategies are suitable. Read about this approach [here](#).

From time to time I post on the [FX Autotrader Elite thread](#) on the donnaforex forum with ideas and commentary on the use of the Autotrader.

Once your payment is processed you will receive an email with the download link for the Autotrader within 24 hours.

Refund Policy

The FX Autotrader Elite is a trading tool designed for use on the Metatrader 4 platform. It has undergone extensive testing and all its functions have been shown to work. Should the product not perform to its specifications as described in the User Guide we will provide a corrected version free of charge and/or provide technical assistance to overcome such issues.

Be aware that in the realm of “trading” no one can guarantee future results and therefore no refunds are payable on the basis of trading performance. Whether or not you are profitable in your trading while using the FX Autotrader Elite trading tool is not a function of the product – it is a function of the particular market dynamics and the soundness of the strategies that you have implemented. The User Guide and educational videos will assist you in developing sound strategies and we will provide further assistance where we can.

If you've got questions, just email me on info@diyforexskills.com and I'll be glad to help.

Happy Trading,

Andrew Peters
